Morningstar Rating: For each fund with at least a 3-year history, Morningstar calculates a risk-adjusted return measure that accounts for variation in a fund's monthly performance (excluding sales charges and including fees and expenses versus all funds in the Morningstar category), placing more emphasis on downward variations and rewarding consistent performance. These ratings change monthly. The top 10% of funds in each category receive a Morningstar Rating™ of 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund and rated separately.) Past performance does not guarantee future results. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. In each Morningstar Category, the 10% of funds with the lowest measured risk are described as Low Risk, the next 22.5% Below Average, the middle 35% Average, the next 22.5% Above Average, and the top 10% High.

High yield securities are lower-quality debt securities and are subject to greater risk of default or price changes due to changes in the credit quality of the issuer. Bond funds generally decline in value as interest rates rise.

The Morningstar Fee Level evaluates an investment share class's expense ratio relative to other investments that invest in a similar asset class. Within each Comparison Group, an investment share class' expense ratio is ranked against its peers using five quintiles. Each quintile corresponds to one of the following scores: Low: Least Expensive, Below Average; Second- Least Expensive, Average; Middle, Above Average; Second- Most Expensive, High: Most Expensive. IHFAX is in the High Yield Bond Front Load comparison group.

Ratings apply to the holdings in the Fund portfolio and not to the Fund or its shares. Ratings are subject to change.
