*The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain performance data current to the most recent month-end, an investor may call toll free 800-276-1262. Because the Fund normally invests in common stocks of companies engaged in natural resources-related activities in a limited geographical area, the Fund's performance largely depends on the overall economic condition of the related sectors and geographical area. Additionally, diplomatic, political or economic developments in foreign countries could adversely impact the Fund's investment in securities of foreign companies.*

*Lipper® rankings are based on Consistent Return and do not take sales charges into account. Lipper's Performance Achievement Certificates are awarded to funds with returns that topped their Lipper® category over three-year, five-year, and ten-year time periods. Certificates are awarded for all Lipper® classifications and for the overall fund universe. Open-end funds, closed-end funds and variable insurance products are considered for awards. The Fund and category had negative performance during the time period cited for the 2016 award. All funds in a category do not necessarily pass all the requirements to be included in the funds' awards process. Of the qualifying funds, Williston Basin/Mid-North America Stock Fund was ranked 1 out of 37 for the 10-year period ended December 31, 2017; 1 out of 44 funds for the five-year period ended December 31, 2015; 1 out of 44 funds for the five-year, 1 out of 48 funds for the three-year period ended December 31, 2014; 1 out of 44 funds for the three-year, 1 out of 42 funds for the five-year period ended December 31, 2013; 1 out of 48 funds for the three-year, 1 out of 47 funds for the five-year period ended December 31, 2012; and 1 out of 51 funds for the three-year period ended December 31, 2011.*
