Performance shown is before tax.

The Fund's performance prior to May 5, 2008 was achieved while the Fund was managed by another sub-adviser, who used different investment strategies and techniques, which may have produced different results than those achieved by the current Investment adviser JPMorgan.

Returns are for the period ended September 30, 2018 and reflect the deduction of the maximum sales load of 4.25%. Distribution Rate @ NAV and Effective Rate @ NAV do not reflect the deduction of the maximum sales load of 4.25%. If reflected, the sales load would reduce the performance quoted.

The performance data represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end, an investor may call toll free (800) 276-1262 or visit www.integrityvikingfunds.com.

Bond Quality

As a percentage of total portfolio market value.

Sources: The ratings agencies that provided the ratings are Standard & Poor's and Moody's. When ratings vary, the higher rating is used. Credit quality ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest). "NR" is used to classify securities for which a rating is not available. Ratings apply to the holdings in the Fund portfolio and not to the Fund or its shares. Ratings are subject to change.

Please read the prospectus carefully before investing.

*Source: Morningstar. For each fund with at least a 3-year history, Morningstar calculates a risk-adjusted return measure that accounts for variation in a fund's monthly performance (excluding sales charges and including fees and expenses versus all funds in the Morningstar category), placing more emphasis on downward variations and rewarding consistent performance. These ratings change monthly. The top 10% of funds in each category receive a Morningstar Rating™ of 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund and rated separately.) Past performance does not guarantee future results. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. In each Morningstar Category, the 10% of funds with the lowest measured risk are described as Low Risk, the next 22.5% Below Average, the middle 35% Average, the next 22.5% Above Average, and the top 10% High.

High yield securities are lower-quality debt securities and are subject to greater risk of default or price changes due to changes in the credit quality of the issuer. Bond funds generally decline in value as interest rates rise.

A fee level is designated as Low because it ranks in the cheapest quintile when compared to its fee level comparison group, which consists of other funds' similar share classes that invest in a similar asset class and have similar expense structures. IHFAX is in the High-Yield Bond Front Load comparison group.

SMH Capital Advisors, Inc. served as investment adviser to the Fund from April 30, 2004 through May 4, 2008. Effective May 5, 2008, JPMorgan is the sub-advisor to Integrity High Income Fund. Following a shareholder confirmation process, on September 10, 2008, JPMorgan was approved as sub-advisor to Integrity High Income Fund.
