IntegrityVikingFunds®

THE NICHE FUND GROUP

Our lives are enriched by services and conveniences we enjoy every day. Many of these benefits were paid for by the issuance of municipal bonds. Municipal bonds are issued to build roads, schools, hospitals, and many other structures that improve the communities in which we live. In addition to enhancing our quality of life, many investors have found municipal bond mutual funds to be a valuable addition to their investment portfolio.

Brunswick, Maine

Fund Overview

Viking Fund Management has distinguished itself as a leader in the management of state-specific municipal bond funds. The Maine Municipal Fund, currently offered to residents of Maine, seeks to provide shareholders with as high a level of current income exempt from federal and state income taxes as is consistent with preservation of capital.

States and municipalities issue municipal bonds to raise money for various public purposes, such as building schools, roads, bridges, and hospitals and for refinancing outstanding obligations. These securities include general obligation bonds, which are backed by the full faith and credit of the issuer and may be repaid from any revenue source, and revenue bonds, which may be repaid only from the revenue of a specific facility or source.

The relative scarcity of individual Maine municipal bonds can make it difficult for individual investors to obtain the best prices. The Maine Municipal Fund's market presence helps enable us to find bonds in appropriate sizes at attractive rates.

Selection Process

We select municipal bonds for the Fund based upon an assessment of a bond's relative value in terms of current yield, price, credit quality, maturity, and future prospects. We review municipal securities available for purchase, monitor the continued creditworthiness of the Fund's municipal investments and analyze economic, political, and demographic trends affecting the municipal markets. Based on our analysis of this research, we will select those municipal obligations that we believe represent the most attractive values.

Credit Quality

The Fund primarily purchases municipal bonds that are rated investment grade by independent ratings agencies at the time of purchase. The Fund may buy non-rated municipal bonds if the investment manager deems them to be of investment grade equivalent.

Investing in Maine

Risk Management

Risk management is an important part of our overall investment strategy. We believe that the best way to assure consistent returns over time is to manage overall risk exposure. Under normal circumstances, the Fund will not invest over 25% of its total assets in any one issuer or industry. In applying this limitation, government issuers of municipal securities are not considered part of any industry. However, municipal securities backed by the assets and revenues of non-governmental users will be considered issued by those users in applying this limitation. In addition, the Fund may invest more than 25% of its net assets in municipal securities that finance similar types of projects, such as education, healthcare, housing, industrial development, transportation, utilities or pollution control.

Relative Stability

The Fund's focus on purchasing the best value has resulted in a mixture of maturities that has allowed the share price to remain relatively stable through a variety of economic climates.

Diversification

The Fund invests in a number of different issuers of investment-grade bonds which provides the investor with an instant degree of diversification upon purchase of the Fund.

Ease of Liquidity

Unlike individual bonds or CDs, the Fund can be redeemed at Net Asset Value (NAV) on any business day.

Flexibility of Income

An investor in the Fund may reinvest the monthly dividend, take a check or have the dividend automatically sent by ACH to the investor's checking or savings account.

Is This Fund Right For You?

The Fund may be an appropriate investment for you if you seek to:

- earn regular monthly dividends free from federal income tax and state income tax;
- preserve investment capital over time;
- reduce taxes on investment income; or
- set aside money systematically for retirement, estate planning, or college funding.

The Fund may not be an appropriate investment for you if you seek to:

- pursue an aggressive, high-growth investment strategy;
- invest through an IRA or 401(k) plan;
- avoid fluctuations in share price; or
- avoid Alternative Minimum Tax (AMT).

Fund Management

Monte Avery is lead portfolio manager of Maine Municipal Fund. Mr. Avery started in the securities business with Paine Webber in 1981. In 1988, he joined Bremer Bank, N.A. in Minot, ND, where he helped launch their Invest Center. Mr. Avery joined Integrity Mutual Funds in 1995. He has served as a portfolio manager to Maine Municipal Fund and various other funds currently advised by Viking Fund Management and previously advised by Integrity Money Management, Inc. since 1996.

Mr. Avery holds a Bachelor of Arts degree in Economics from Minot State University. He is a registered representative, registered investment adviser, and a former member of the Commodity Futures Trading Commission.

Shannon Radke has been co-manager of the Fund since 2010. He has been engaged in the securities business since 1988.

Mr. Radke holds a Bachelor of Business Administration degree in Banking and Finance from the University of North Dakota. He has been President of Viking Fund Management since 1998 and is currently President of Integrity Viking Funds.

Josh Larson is responsible for co-managing the Fund. Mr. Larson was a research analyst for the Fund prior to being named as co-portfolio manager in 2014.

Mr. Larson received Bachelor of Science degrees in Finance and Management from Minot State University in 2010 and joined Integrity Viking Funds in October 2010.

A support staff of research analysts assist the Portfolio Management Team.

The Fund is sold by prospectus only. An investor should consider the investment objectives, risks, and charges and expenses of the Fund carefully before investing. The prospectus contains this and other information about the Fund. You may obtain a prospectus at no cost from your financial adviser or at integrityvikingfunds.com. Please read the prospectus carefully before investing.

Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Bond prices and, therefore, the value of a bond fund will decline as interest rates rise. Because the Fund invests in securities of a single state, the Fund is more susceptible to factors adversely impacting the state's securities than a municipal fund that does not concentrate its securities in a single state. A portion of the Fund's dividends may be subject to state and local taxes and, where applicable, federal alternative minimum tax (AMT).
