The performance data represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Returns are for the period ended 6/30/2025 and reflect the deduction of the maximum sales load of 5.00%. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end, an investor may call toll free (800) 276-1262 or visit www.integrityvikingfunds.com.

Effective May 1, 2011, the maximum sales charge was increased to 5.00% for sales made on or after that date. However shareholders of the Fund who were also shareholders of the Fund on April 30, 2011 (a "Pre-May 2011 Existing Shareholder") will not be subject to an up-front sales charge on purchases of additional Class A shares of the Fund. The average annual returns in the table reflect the maximum sales charge of 5.00%.

Ethical investment criteria could cause funds to underperform similar funds that do not have such criteria. Among the reasons for this are: ethically aware companies could fall out of favor with investors or fail to perform as well as companies that do not fit the Fund's ethical investment criteria; stocks that do not meet the ethical investment criteria could outperform those that do; and the ethical investment criteria could cause the Fund to sell or avoid stocks that subsequently perform well.

The Morningstar™ Sustainability Rating is a measure of how well the holdings in a portfolio are managing their environmental, social, and governance, or ESG, risks and opportunities relative to their Morningstar Category peers. The rating is a holdings-based calculation using company-level ESG analytics from Sustainalytics, a leading provider of ESG research. It is calculated for managed products and indexes globally using Morningstar's portfolio holdings database. The Morningstar Sustainability Rating is derived from the Morningstar® Portfolio Sustainability Score™, which is calculated based on company-level ESG scores and company involvement in ESG-related controversies. Sustainalytics provides ESG scores on more than 4,500 companies globally, which are evaluated within global industry peer groups. In addition, Sustainalytics tracks and categorizes ESG-related controversial incidents on more than 10,000 companies globally. More information regarding Sustainability calculations can be found at www.morningstar.com.
