INTEGRITY DIVIDEND HARVEST FUND

DEAR SHAREHOLDERS:

Enclosed is the annual report of the operations for the Integrity Dividend Harvest Fund (the "Fund") for the year ended July 31, 2023 ("the period"). The Fund's portfolio and related financial statements are presented within for your review.

The period saw the S&P 500 TR Index return 13.02%. Against a backdrop of high inflation, high interest rates, and global geopolitical turmoil, the market managed to provide double digit returns. This is likely due to the market's forward looking nature. After a large pullback in the prior period, investors started to look for positive signs that might drive the market higher. The Federal Reserve provided a glimmer of hope as they began slowing the pace of interest rate increases, signaling that the end to the rate hike cycle may be near. While value stocks dominated the first half of the period, growth stocks took over in the back half. Much of the market's YTD 2023 gains were driven by a handful of growth stocks with triple-digit returns. Rates of over 5% in money market funds drew the attention of income investors. It is yet to be seen if the recent rise in rates will lead to a "soft landing" or if a recession still looms around the corner.

Per the U.S. Bureau of Labor Statistics, the unemployment rate remained relatively flat over the period, ending at 3.5%. The Federal Reserve's Federal Open Market Committee continued raising interest rates in an attempt to slow inflation. As of the end of the period, the target range for the federal funds rate stood at 5.25% to 5.50%, up from 2.25% to 2.50% at the beginning of the period. The rate of the increases did slow near the end of the period, including one meeting where the rate was not raised at all.

During the period, the Technology sector was the best performer, followed by Communication Services. The market's recovery rally has been led by certain stocks in these sectors such as Apple, Microsoft, Nvidia, Alphabet, and Meta. The worst performing sectors were Real Estate and Utilities. Real Estate was negatively impacted by the work-from-home trend which has now caused many office buildings to remain well under capacity. Utilities stocks, valued for their generally stable dividends, didn't look quite as attractive to investors who could find income from money markets, certificates of deposit, and treasuries.

The Fund's total returns for Class A, C, and I Shares were 5.31%, 4.50%, and 5.58%, respectively, without sales charge, for the year ended July 31, 2023 while the S&P 500 returned 13.02%. The Fund is in the Morningstar Large Value category which returned 8.61% over the same time period. The Fund underperformed both its Morningstar category and the S&P 500. The Fund's underperformance relative to the S&P 500 was primarily driven by stock selection in Communication Services, an overweight allocation to Utilities, and an underweight allocation to Technology. Aiding relative performance was an underweight allocation to Real Estate and stock selection in Technology.

The Fund seeks to maximize total return by emphasizing high current income with long term appreciation as a secondary objective, consistent with preservation of capital. The Portfolio Management Team ("Team") considers dividend yield, dividend growth rate, earnings growth, price-to-earnings multiples, and balance sheet strength. The Team emphasizes dividend yield in selecting stocks for the Fund because the Team believes that, over time, dividend income can contribute significantly to total return and is a more consistent source of investment return than appreciation.

You should consider the Fund's investment objectives, risks, charges, and expenses carefully before investing. For this and other important information, please obtain a Fund prospectus at no cost from your financial adviser and read it carefully before investing.

INTEGRITY DIVIDEND HARVEST FUND

PERFORMANCE (unaudited)

Comparison of change in value of a \$10,000 investment

Average Annual Total Returns for the periods ended July 31, 2023

	1 year	3 year	5 year	10 year	Since Inception*
Class A Without sales charge	5.31%	13.02%	8.90%	9.32%	9.98%
Class A With sales charge (5.00%)	0.05%	11.10%	7.79%	8.77%	9.47%
Class C Without CDSC	4.50%	12.16%	8.07%	N/A	8.50%
Class C With CDSC (1.00%)	3.50%	12.16%	8.07%	N/A	8.50%
Class I Without sales charge	5.58%	13.29%	9.16%	N/A	8.64%

^{*} May 1, 2012 for Class A; August 3, 2015 for Class C; August 1, 2016 for Class I

The total annual fund operating expense ratio (before expense waivers and reimbursements and including acquired fund fees and expenses) as of the most recent fiscal year-end was 1.43%, 2.18%, and 1.18% for Class A, C, and I, respectively. The net annual fund operating expense ratio (after expense waivers and reimbursements and excluding acquired fund fees and expenses) as of the most recent fiscal year-end was 0.95%, 1.70%, and 0.70% for Class A, C, and I, respectively. The Fund's investment adviser has contractually agreed to waive fees and reimburse expenses through November 29, 2023 so that total annual fund operating expenses after fee waivers and expense reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.95%, 1.70%, and 0.70% for Class A, C, and I, respectively. This expense limitation agreement may only be terminated or modified prior to November 29, 2023 with the approval of the Fund's Board of Trustees.

The table and graph above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions and redemptions of Fund shares. The graph comparing the Fund's performance to a benchmark index provides you with a general sense of how the Fund performed. To put this information in context, it may be helpful to understand the special differences between the two. The Fund's total return for the period shown appears with and without sales charges and includes Fund expenses and management fees. A securities index measures the performance of a theoretical portfolio. Unlike a fund, the index is unmanaged; there are no expenses that affect the results. In addition, few investors could purchase all of the securities to match the index. If they could, transaction costs and other expenses would be incurred. All Fund and benchmark returns include reinvested dividends.

INTEGRITY DIVIDEND SUMMIT FUND

DEAR SHAREHOLDERS:

Enclosed is the annual report of the operations for the Integrity Dividend Summit Fund (the "Fund") for the period of May 1, 2023 (inception of operations) through July 31, 2023 (the "period"). The Fund's portfolio and related financial statements are presented within for your review.

The period saw the S&P 500 TR Index return 13.02%. Against a backdrop of high inflation, high interest rates, and global geopolitical turmoil, the market managed to provide double digit returns. This is likely due to the market's forward looking nature. After a large pullback in the prior period, investors started to look for positive signs that might drive the market higher. The Federal Reserve provided a glimmer of hope as they began slowing the pace of interest rate increases, signaling that the end to the rate hike cycle may be near. While value stocks dominated the first half of the period, growth stocks took over in the back half. Much of the market's YTD 2023 gains were driven by a handful of growth stocks with tripledigit returns. Rates of over 5% in money market funds drew the attention of income investors. It is yet to be seen if the recent rise in rates will lead to a "soft landing" or if a recession still looms around the corner.

Per the U.S. Bureau of Labor Statistics, the unemployment rate remained relatively flat over the period, ending at 3.5%. The Federal Reserve's Federal Open Market Committee continued raising interest rates in an attempt to slow inflation. As of the end of the period, the target range for the federal funds rate stood at 5.25% to 5.50%, up from 2.25% to 2.50% at the beginning of the period. The rate of the increases did slow near the end of the period, including one meeting where the rate was not raised at all.

During the period, the Technology sector was the best performer, followed by Communication Services. The market's recovery rally has been led by certain stocks in these sectors such as Apple, Microsoft, Nvidia, Alphabet, and Meta. The worst performing sectors were Real Estate and Utilities. Real Estate was negatively impacted by the work-from-home trend which has now caused many office buildings to remain well under capacity. Utilities stocks, valued for their generally stable dividends, didn't look quite as attractive to investors who could find income from money markets, certificates of deposit, and treasuries.

The Fund's total returns for Class A, C, and I Shares were 3.25%, 3.25%, and 3.31%, respectively, without sales charge and including voluntary and contractual expense waivers and reimbursements, since inception through July 31st 2023 while the Russell 1000 Value returned 6.19% over the same period. The Fund's underperformance relative to the Russell 1000 Value was primarily driven by stock selection in Communication Services and an overweight allocation to Consumer Staples. Aiding relative performance was stock selection in Financials.

The Fund seeks to maximize total return by emphasizing high current income with long term appreciation as a secondary objective, consistent with preservation of capital. The Portfolio Management Team ("Team") considers dividend yield, dividend growth rate, earnings growth, price-to-earnings multiples, and balance sheet strength. The Team emphasizes dividend yield in selecting stocks for the Fund because the Team believes that, over time, dividend income can contribute significantly to total return and is a more consistent source of investment return than appreciation.

Class I Without sales charge	N/A	N/A	N/A	N/A	3.31%

^{*} May 1, 2023 for Class A, C and I

The total annual fund operating expense ratio (before expense waivers and reimbursements and including acquired fund fees and expenses) as of the most recent fiscal year-end was 12.71%, 13.45%, and 12.42% for Class A, C, and I, respectively. Management has voluntarily waived all expenses for the period May 1, 2023 (Inception date) through July 31, 2023. The net annual fund operating expense ratio (after expense waivers and reimbursements and excluding acquired fund fees and expenses) as of the most recent fiscal period was 0.00%, 0.00%, and 0.00% for Class A, C, and I, respectively. The Fund's investment adviser has contractually agreed to waive fees and reimburse expenses through November 29, 2024 so that total annual fund operating expenses after fee waivers and expense reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.99%, 1.74%, and 0.74% for Class A, C, and I, respectively. This expense limitation agreement may only be terminated or modified prior to November 29, 2024 with the approval of the Fund's Board of Trustees. In addition, the Fund's investment adviser has voluntarily waived and reimbursed all expenses indefinitely.

The table above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions and redemptions of Fund shares.

INTEGRITY GROWTH & INCOME FUND

DEAR SHAREHOLDERS:

Enclosed is the annual report of the operations for the Integrity Growth & Income Fund (the "Fund") for the year ended July 31, 2023 ("the period"). The Fund's portfolio and related financial statements are presented within for your review.

The period saw the S&P 500 TR Index return 13.02%. Against a backdrop of high inflation, high interest rates, and global geopolitical turmoil, the market managed to provide double digit returns. This is likely due to the market's forward looking nature. After a large pullback in the prior period, investors started to look for positive signs that might drive the market higher. The Federal Reserve provided a glimmer of hope as they began slowing the pace of interest rate increases, signaling that the end to the rate hike cycle may be near. While value stocks dominated the first half of the period, growth stocks took over in the back half. Much of the market's YTD 2023 gains were driven by a handful of growth stocks with tripledigit returns. Rates of over 5% in money market funds drew the attention of income investors. It is yet to be seen if the recent rise in rates will lead to a "soft landing" or if a recession still looms around the corner.

Per the U.S. Bureau of Labor Statistics, the unemployment rate remained relatively flat over the period, ending at 3.5%. The Federal Reserve's Federal Open Market Committee continued raising interest rates in an attempt to slow inflation. As of the end of the period, the target range for the federal funds rate stood at 5.25% to 5.50%, up from 2.25% to 2.50% at the beginning of the period. The rate of the increases did slow near the end of the period, including one meeting where the rate was not raised at all.

During the period, the Technology sector was the best performer, followed by Communication Services. The market's recovery rally has been led by certain stocks in these sectors such as Apple, Microsoft, Nvidia, Alphabet, and Meta. The worst performing sectors were Real Estate and Utilities. Real Estate was negatively impacted by the work-from-home trend which has now caused many office buildings to remain well under capacity. Utilities stocks, valued for their generally stable dividends, didn't look quite as attractive to investors who could find income from money markets, certificates of deposit, and treasuries.

The Fund's total returns for Class A, C, and I Shares were 12.98%, 12.14%, and 13.25%, respectively, without sales charge, for the year ended July 31, 2023 while the S&P 500 returned 13.02%. The Fund is in the Morningstar Large Blend category which returned 11.44% over the same time period. The Fund outperformed its Morningstar category and performed in-line with the S&P 500. The Fund's performance relative to the S&P 500 was aided by stock selection in Technology, an overweight allocation to Technology, and an underweight allocation to Healthcare. Detracting from relative performance was stock selection in Communication Services.

The Fund is managed using a blended growth and income investment strategy. We seek to invest primarily in domestic common stocks, balancing investments between growth and dividend paying stocks, depending on where we see the best value. We also try to emphasize companies we believe offer both attractive investment opportunities and demonstrate a positive awareness of their impact on the society in which they operate.

The table and graph above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions and redemptions of Fund shares. The graph comparing the Fund's performance to a benchmark index provides you with a general sense of how the Fund performed. To put this information in context, it may be helpful to understand the special differences between the two. The Fund's total return for the period shown appears with and without sales charges and includes Fund expenses and management fees. A securities index measures the performance of a theoretical portfolio. Unlike a fund, the index is unmanaged; there are no expenses that affect the results. In addition, few investors could purchase all of the securities to match the index. If they could, transaction costs and other expenses would be incurred. All Fund and benchmark returns include reinvested dividends. The results prior to August 1, 2009 were achieved while the Fund was managed by a different investment adviser. The current investment adviser may produce different investment results than those achieved by the previous investment adviser.

INTEGRITY HIGH INCOME FUND

DEAR SHAREHOLDERS:

Enclosed is the annual report of the operations for the Integrity High Income Fund (the "High Income Fund" or the "Fund") for the year ended July 31, 2023. The Fund's portfolio and related financial statements are presented within for your review.

Market Environment

At the beginning of the annual review period on the heels of the worst first half of any calendar year ever, the high yield market rallied on strong corporate earnings and a rebound in higher quality bonds due in part to a decline in US Treasury rates. By mid-August, however, a dramatic reversal ensued as commentary from central banks remained hawkish and recession concerns increased, causing extreme market volatility and negative high yield returns for the balance of the third quarter. Despite selling off the last two weeks of the year, the high yield market experienced a slight reprieve during the fourth quarter and carried that momentum into January. High yield, and risk assets more broadly, posted solid 1Q23 gains despite the continued macro headwinds. Central banks continued their rhetoric on the dangers of runaway inflation versus a hard landing scenario and faced new challenges as the second largest bank failure in US history occurred. Subsequent contagion risk/fears emerged across US regional banks, just days before UBS acquired Credit Suisse in a government backed deal, marking the first time two Systemically Important Banks merged. Prior to March, high yield outperformed in January on no real news other than speculation that the Fed would not follow through with continued hikes and that inflation was moderating. This reversed in February as yields across the US Treasury curve increased 40-60bps following the release of strong economic and inflationary data. While macro sentiment was cautious at the outset of the second quarter, high yield was largely out of the eye of the storm as it entered an earnings season that yet again met/beat weak expectations. Sector and issuer dispersion continued to percolate; consumer experience sectors are posting record numbers and backlog while telecom faces a higher capex environment amid elevated borrowing costs and chemical companies end markets struggle to find demand. The Fed paused in June but indicated future rate hikes were still the expectation, and subsequent strong economic and employment data further cemented the market's belief for a 25bp hike in July. High yield generated carry returns for the second quarter, fueled by the risk-on rally in June. July was another strong return month for high yield with lower quality leading the way again as positive inflation data, better-than-expected second quarter earnings and a strong technical drove spreads near the 400bp level. The Fed remained hawkish with the expected 25bp point hike although gave acknowledgement to the recent positive data, suggesting a pause may be ahead. Risk assets now trade at valuations that take a hard landing off the table with mentions of Goldilocks and no landing increasing. Little new supply and increasing demand for high yield is providing a strong technical to secondary market prices.

The high yield market returned +4.41% for the trailing twelve-month period ending July 31st (as measured by the Bloomberg Barclays U.S. High Yield Index) as spreads tightened 101 bps to 397 bps while yields increased 0.68% to 8.41%. After repricing in 1H22, yields and spreads have been largely range-bound over the last year but trending tighter in July. Outperformance came from down-in-quality bonds with CCCs (+6.48%) outperforming Single Bs (+5.20%) and BBs (+2.98%) for the trailing year. Sectors outperforming included Oil Field Services (+20.35%), Leisure (+13.49%), and Gaming (+11.92%), while Wireless (-5.61%), Health Insurance (-3.76%) and Wirelines (-3.36%) lagged.

Year-to-date, gross issuance of \$102.3bn and net of \$38.1bn compares to \$72.9bn and \$38.5bn through the first 7 months in 2022 and \$106.5bn and \$56.0bn for the full year. Capital market activity for high yield bonds for the year-to-date period has priced \$102.3bn, tracking marginally ahead of last year's record low pace. Refinancing represents 63% of the activity year-to-date. Mutual fund flows have been positive recently with a \$1.3 billion inflow in July following \$2.7bn in June, bringing the year-to-date outflows to -\$9.3bn. Recall, full year 2022's -\$48.9bn outflow was the most on record. Year-to-date, bonds for thirteen companies have defaulted totaling \$16.1bn. The trailing 12-month par weighted default rate of 1.18% has risen from last year (0.83%) but remains well below the long-term average of 3.50%.

With a +4.41% return for the trailing twelve-month period ended July 31, 2023, high yield (as measured by Bloomberg Barclays U.S. High Yield Index) outperformed all other major fixed income asset classes

including emerging markets (EMCB), +3.11%; high-grade credit (C0A0), -1.07%; U.S. Aggregate (D0A0), -3.49%; and 5-year Treasuries (GA05), -3.89%.

Fund Performance and Positioning

For the twelve-month period ended July 31, 2023, the Integrity High Income Fund returned +2.41% (A Class Shares, net of fees), +1.65% (C Class Shares, net of fees) and +2.66% (I Class Shares, net of fees) compared to its benchmark, the Bloomberg Barclays U.S. High Yield Index, which returned +4.41%. The Fund underperformed the benchmark for the twelve-month period, as a result of security selection in the wirelines, retailers and gaming sectors. Specifically, relative weightings in Lumen Technologies, Rite Aid Corporation, iHeartmedia, Wesco Aircraft Holdings and Carnival Corporation detracted from performance in the period. Alternatively, relative performance benefitted from security selection in the automotive, pharmaceuticals and independent sectors. The largest contributions to performance resulted from relative weightings in Bausch Health Companies, Cooper Standard Holdings, Chord Energy Corporation, Next Alt Sarl, and CSC Holdings.

Compared to the benchmark on July 31, 2023, the Fund remained overweight in cable satellite, consumer products and automotive due to our view of the relative value opportunities within those sectors. The Fund was underweight in finance companies, gaming and P&C because we have not found these sectors attractive due to challenging fundamental outlooks or rich valuations. Relative to the benchmark on July 31, 2023, the Fund's yield, spread and duration are lower than those of the benchmark.

Market Outlook

The high yield market has tightened over 70bps through the recent trading range, returning 6.83% yearto-date (as measured by Bloomberg Barclays U.S. High Yield Index). While defaults are likely to continue to rise, the trailing twelve-month default rate actually fell to 1.18% in July, compared to the long-term average of 3.50%. Thus, despite the move in spreads, valuations remain fair and reflect the current risk in the market. Despite the outperformance from lower quality, dispersion continues to increase as pockets of idiosyncratic stresses emerge. Given the strong fundamentals and supportive technicals, we believe high yield will continue to provide attractive carry for the rest of 2023.

^{*} April 30, 2004 for Class A and C; August 1, 2016 for Class I

The total annual fund operating expense ratio (before expense waivers and reimbursements and including acquired fund fees and expenses) as of the most recent fiscal year-end was 1.68%, 2.43%, and 1.43% for Class A, C, and I, respectively. The net annual fund operating expense ratio (after expense waivers and reimbursements and excluding acquired fund fees and expenses) as of the most recent fiscal year-end was 0.99%, 1.74%, and 0.74% for Class A, C, and I, respectively. The Fund's investment adviser has contractually agreed to waive fees and reimburse expenses through November 29, 2023 so that total annual fund operating expenses after fee waivers and expense reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.99%, 1.74%, and 0.74% for Class A, C, and I, respectively. This expense limitation agreement may only be terminated or modified prior to November 29, 2023 with the approval of the Fund's Board of Trustees.

The table and graph above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions and redemptions of Fund shares. The graph comparing the Fund's performance to a benchmark index provides you with a general sense of how the Fund performed. To put this information in context, it may be helpful to understand the special differences between the two. The Fund's total return for the period shown appears with and without sales charges and includes Fund expenses and management fees. A securities index measures the performance of a theoretical portfolio. Unlike a fund, the index is unmanaged; there are no expenses that affect the results. In addition, few investors could purchase all of the securities to match the index. If they could, transaction costs and other expenses would be incurred. All Fund and benchmark returns include reinvested dividends. The results prior to August 1, 2009 were achieved while the Fund was managed by a different investment adviser. The current investment adviser may produce different investment results than those achieved by the previous investment adviser.

INTEGRITY MID-NORTH AMERICAN RESOURCES FUND

DEAR SHAREHOLDERS:

Enclosed is the annual report of the operations for the Integrity Mid-North American Resources Fund (the "Fund") for the year ended July 31, 2023 ("the period"). The Fund's portfolio and related financial statements are presented within for your review.

Market Review

The period saw the S&P 500 TR Index return 13.02%. Against a backdrop of high inflation, high interest rates, and global geopolitical turmoil, the market managed to provide double digit returns. This is likely due to the market's forward looking nature. After a large pullback in the prior period, investors started to look for positive signs that might drive the market higher. The Federal Reserve provided a glimmer of hope as they began slowing the pace of interest rate increases, signaling that the end to the rate hike cycle may be near. While value stocks dominated the first half of the period, growth stocks took over in the back half. Much of the market's YTD 2023 gains were driven by a handful of growth stocks with triple-digit returns. Rates of over 5% in money market funds drew the attention of income investors. It is yet to be seen if the recent rise in rates will lead to a "soft landing" or if a recession still looms around the corner.

Per the U.S. Bureau of Labor Statistics, the unemployment rate remained relatively flat over the period, ending at 3.5%. The Federal Reserve's Federal Open Market Committee continued raising interest rates in an attempt to slow inflation. As of the end of the period, the target range for the federal funds rate stood at 5.25% to 5.50%, up from 2.25% to 2.50% at the beginning of the period. The rate of the increases did slow near the end of the period, including one meeting where the rate was not raised at all.

During the period, the Technology sector was the best performer, followed by Communication Services. The market's recovery rally has been led by certain stocks in these sectors such as Apple, Microsoft, Nvidia, Alphabet, and Meta. The worst performing sectors were Real Estate and Utilities. Real Estate was negatively impacted by the work-from-home trend which has now caused many office buildings to remain well under capacity. Utilities stocks, valued for their generally stable dividends, didn't look quite as attractive to investors who could find income from money markets, certificates of deposit, and treasuries.

Energy Review

Crude oil trended lower over the course of the third quarter of 2022 due to bearish factors both on the demand and supply side. The global economic outlook was dimmed by waves of aggressive tightening of monetary policy around the world in response to stubbornly high inflation. Additionally, China's continued adoption of their zero COVID policy reduced demand as well as demand forecasts. On the supply side, planned monthly production increases by OPEC and OECD strategic petroleum reserve (SPR) releases over the third quarter loosened global supply. Towards the end of the third quarter 2022, OPEC shifted to a stance of supporting crude oil prices through a two million barrels of oil per day production cut. This production cut highlights the economic incentive for OPEC to prioritize price over production.

For the third quarter of 2022, the Fund (Class A Shares) returned 0.50% compared to a gain of 2.39% for the S&P 1500 Energy Index, a gain of 0.42% for the iShares S&P Global Clean Energy Index and a loss of -0.44% for the Morningstar Equity Energy category. WTI crude oil decreased 18.68% to end the quarter at \$79.49 and Brent crude oil decreased 15.35% to end the quarter at \$85.14.

The fourth quarter of 2022 brought increased volatility for commodities and energy equities. Crude oil and energy equities performed well into the midterm elections, however, China's zero-COVID policy and recessionary concerns' negative implications for global demand began to pressure crude oil. Seller's fatigue prompted a recovery in both crude oil and energy equities in December, while natural gas continued to slide on mild winter weather and better than expected inventories. The fundamental backdrop for the energy sector remained strong as global inventories were tight and supply and demand dynamics continued to be supportive. Additionally, OPEC's price over market share focus has helped put a floor in for crude oil prices.

For the fourth quarter 2022, the Fund (Class A Shares) returned 14.09% compared to a gain of 22.15% for the S&P 1500 Energy Index, a gain of 3.98% for the iShares S&P Global Clean Energy Index, and a gain of 20.25% for the Morningstar Equity Energy category. WTI crude oil increased 4.74% to end the quarter at \$80.26 and Brent crude oil increased 6.44% to end the quarter at \$85.91.

Over the first two months of 2023, crude oil ebbed and flowed between \$74 and \$80/barrel. Energy equities predominately followed suit and saw a modest increase through February. In March, turmoil hit the U.S. banking system with the failures of Silicon Valley Bank and Signature Bank. This triggered a massive risk off trade in which crude oil sold off by 17% in less than two weeks. Over the first half of March 2023, energy equities went from being solidly in positive territory for the year to being down over 8% YTD. Both crude oil and energy equities rallied over the last two weeks of March but closed the quarter in negative territory.

For the first quarter of 2023, the Fund (Class A Shares) returned -6.96% compared to a loss of -4.94% for the S&P 1500 Energy Index, a loss of -0.35% for the iShares S&P Global Clean Energy Index, and a loss of -3.72% for the Morningstar Equity Energy category. WTI crude oil decreased 5.94% to end the quarter at \$75.67 and Brent crude oil decreased 5.75% to end the quarter at \$79.89.

Crude oil trended lower over the second quarter of 2023. Energy equities followed suit through the first two months of the second quarter, however, traded materially higher over the month of June, led by oilfield service. Recession fears drove down oil prices over the quarter which led to a substantial decline in drilling activity. OPEC continued to cut oil production in an effort to bolster oil prices, but were not enough to offset weak demand trends.

For the second quarter of 2023, the Fund (Class A Shares) returned 0.87% compared to a loss of -0.41% for the S&P 1500 Energy Index, a loss of -6.98% for the iShares S&P Global Clean Energy Index, and a gain of 0.23% for the Morningstar Equity Energy category. WTI crude oil decreased 6.36% to end the quarter at \$70.64 and Brent crude oil decreased 4.67% to end the quarter at \$75.41.

In the month of July, WTI crude prices surged 15% to close the month at \$81.32. The Fund (Class A Shares) gained 9.28% in July, 1.33% ahead of the S&P 1500 Energy Index and 0.64% behind of the Morningstar Equity Energy category.

The Fund's total returns for Class A, C, and I Shares were 6.23%, 5.50%, and 6.65%, respectively, without sales charge, for the year ended July 31, 2023, compared to returns of 18.58%, 12.97%, and 15.87% for the S&P 1500 Energy Index, the S&P 1500 Index, and the Morningstar Equity Energy Category, respectively. Detracting from the Fund's performance relative to its Morningstar category was an overweight allocation to renewable energy and selection within oilfield service and midstream. Aiding relative performance was an overweight allocation to oilfield service.

If you would like more frequent updates, please visit the Fund's website at www.integrityvikingfunds.com for daily prices along with pertinent Fund information.

Sincerely,

The Portfolio Management Team

The Fund's performance prior to November 10, 2008 was achieved under the previous investment strategy, which may have produced different results than the current investment strategy.

INTEGRITY SHORT TERM GOVERNMENT FUND

DEAR SHAREHOLDERS:

Enclosed is the annual report of the operations for the Integrity Short Term Government Fund (the "Fund") for the year ended July 31, 2023. The Fund's portfolio and related financial statements are presented within for your review.

Market Environment

During the 12-month period, the fixed income market witnessed another sharp spike in Treasury yields across the yield curve with curve flattening significantly between the 2-year and 10-year maturities as the 2-year Treasury yield rose by 1.99% and the 10-year yield increased by 1.31%, reflecting the market's dramatic pricing out of swift monetary policy normalization by the Fed. As a result, the Bloomberg U.S. Aggregate Bond Index, a broad market fixed income measure, declined -3.37% over the year (following the -9.12% decline over the preceding 12-month period).

Notwithstanding moderating inflation data at year end, a tight labor market along with the Federal Reserve's pushing back against market speculation of Fed Funds rate cuts in 2023 were key drivers of the interest rate moves by the end of last year. Risk assets started the new year with strong gains across markets. Market expectations that central banks might be closer to an inflection point in their current interest rate hiking cycle drove interest rates lower in January. However, rates reversed course in February as robust economic data prompted market concern that any near term pause in policy rate hikes might be postponed. Market volatility spiked in March with the collapse of Silicon Valley Bank and Signature Bank in the US. Intervention by central banks and banking regulators, including launching of the Bank Term Funding Program (BTFP), lifting of the deposit insurance limit, and the acquisition of First Republic by J.P. Morgan were instrumental in restoring investor confidence in the financial system and prevented further financial fallout.

In total, the Federal Reserve raised the Fed Funds rate by 75bps prior to a pause during the June meeting, as it maintained that measures adopted by regulators should prevent any further financial meltdown as related to the regional bank crisis. The labor market also remained tight and core CPI remained elevated. By mid-May, market focus had shifted towards the prospect of an imminent U.S. government default. Eventually a debt ceiling bill raising the government borrowing limit was passed in early June. The Fed subsequently left their target rates unchanged at the June meeting as Chair Powell indicated that the Federal Open Market Committee (FOMC) was considering a more gradual approach in Fed Funds policy. However, the Summary of Economic Projections showed a median funds rate projection of 5.625% by the end of 2023, an increase of 50bps over the rates that were kept constant at the May meeting. In July, the Federal Reserve raised the Fed Funds rate by an additional 25bps, although the market was expecting that it would be the last hike in the current cycle. Risk assets rallied as a result.

Portfolio Performance and Positioning

The Fund's total returns for Class I and A shares were -1.97% and -2.08%, respectively, for the year ended July 31, 2023, compared to a return of 0.15% for the ICE BofA Merrill Lynch 1-3 Year Bond Index. The Fund's performance was driven mainly by the spread widening of the overall Agency MBS market, offset by the relatively stable cash flow and high interest income of our portfolio.

In our view, interest rate volatility-adjusted valuations on Agency MBS have approached levels reached during the Global Financial Crisis. As interest rates stabilize, we see upside for Agency MBS returns. At these levels, Agency MBS yields are attractive relative to similar duration corporate credit and can cushion further potential interest rate increases. Given the very flat yield curve, we prefer short/intermediate maturity securitized products such as Agency MBS. Historically, the Treasury yield curve steepens with longer maturity yields increasing more (or decreasing less) relative to shorter maturity yields as the Fed approaches the end of a hiking cycle. This technical dynamic further supports shorter duration fixed income securities such as Agency MBS in our opinion. Currently, the portfolio is titled towards highly seasoned, short duration Agency MBS. We also believe Agency Commercial Mortgage-Backed Securities offer good relative value.

- (1) Interest or dividend is paid-in-kind, when applicable. Rate paid in-kind is shown in parenthesis.
- (2) Security is perpetual and thus, does not have a predetermined maturity date. The coupon rate for this security is fixed for a period of time and may be structured to adjust thereafter. The date shown, if applicable, reflects the next call date. The coupon rate shown is the rate in effect as of July 31, 2023.
- (3) Non-income producing security.
- (4) Issue is in default.
- (5) Interest or dividend is partial paid-in-kind and partial cash. Rate paid in-kind is shown in parenthesis.
- *Indicates all or a portion of bonds are segregated by the custodian to cover when-issued or delayeddelivery purchases when they occur.
- ** All or a portion of the security is considered restricted at July 31, 2023. See Note 2.
- # When-issued purchase as of July 31, 2023.
- + The level 3 assets were a result of unavailable quoted prices from and active market or the unavailability of other significant observable inputs. See Note 3.
- ^ Deemed by management to be illiquid security. See Note 2. Total fair value of illiquid securities amount to \$339,059, representing 0.7% of net assets as of July 31, 2023.
- 144A Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities are deemed to be liquid under procedures approved by the Fund's Board of Trustees and may normally be sold to qualified institutional buyers in transactions exempt from registration. Total fair value of Rule 144A Securities amounts to \$35,690,798 representing 73.1% of net assets as of July

NOTES TO FINANCIAL STATEMENTS

NOTE 1: Organization

The Integrity Funds (the "Trust") was organized as a Delaware statutory trust on October 31, 1997 and commenced operations on October 31, 1997. The Trust is registered under the Investment Company Act of 1940 as an open-end management investment company, consisting of six series (the "Funds").

Integrity Dividend Harvest Fund (the "Dividend Harvest Fund"), a diversified fund, seeks high current income with long term appreciation as a secondary objective. Integrity Dividend Summit Fund (the "Dividend Summit Fund"), a non-diversified fund commencing operations on May 1, 2023, seeks high current income with long term appreciation as a secondary objective. Integrity Growth & Income Fund (the "Growth & Income Fund"), a diversified fund, seeks to provide long-term growth of capital with dividend income as a secondary objective. Integrity High Income Fund (the "High Income Fund"), a diversified fund, seeks a high level of current income with capital appreciation as a secondary objective. Integrity Mid-North American Resources Fund (the "MNA Resources Fund"), a diversified fund, seeks to provide long-term growth through capital appreciation. Integrity Short Term Government Fund (the "S-T Gov Fund"), a diversified fund, seeks to achieve a high and stable rate of total return, when and as opportunities are available in the context of preserving capital in adverse markets.

Each Fund in the Trust, except for S-T Gov Fund, currently offers Class A, C, and I shares. S-T Gov Fund offers Class A and I shares. The Class A shares of Dividend Harvest Fund, Dividend Summit Fund, Growth & Income Fund, High Income Fund, MNA Resources Fund and S-T Gov Fund are sold with an initial sales charge of 5.00%, 5.00%, 5.00%, 4.25%, 5.00% and 2.00%, respectively, and a distribution fee of up to 0.25% on an annual basis. Class C shares are sold without a sales charge and are subject to a distribution fee of up to 1.00% on an annual basis. Class I shares are sold without a sales charge or distribution fee. The three classes of shares (two classes for S-T Gov Fund) represent interest in each Fund's same portfolio of investments, have the same rights, and are generally identical in all respects except that each class bears its separate distribution and certain other class expenses and has exclusive voting rights with respect to any matter on which a separate vote of any class is required.

Under the Trust's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts with their vendors and others that provide for general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds. However, based on experience, the Funds expect that risk of loss to be remote.

Each Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946, Financial Services – Investment Companies.

NOTE 2: Summary of Significant Accounting Policies

Investment security valuation—The Funds value their investments at fair value. Securities for which market quotations are available are valued as follows: (a) Listed securities are valued at the closing price obtained from the respective primary exchange on which the security is listed or, if there were no sales on that day, at its last reported current bid price; (b) Unlisted securities are valued at the last current bid price obtained from the National Association of Securities Dealers' Automated Quotation System. The Funds' administrative services agent, Integrity Fund Services, LLC ("Integrity Fund Services" or "IFS") obtains all of these prices from services that collect and disseminate such market prices. Prices provided by an independent pricing service may be determined without exclusive reliance on quoted prices and may take into account appropriate factors such as: institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. In the absence of an ascertainable market value, assets are valued at their fair value as determined by IFS using methods and procedures reviewed and approved by the Board of Trustees. Refer to Note 3 for further disclosures related to the inputs used to value the Funds' investments. Shares of a registered investment company, including money market funds, that are not traded on an exchange are valued at the investment company's net asset value per share.

When-issued securities—The Funds may purchase securities on a when-issued basis. Payment and delivery may take place after the customary settlement period for that security. The price of the underlying securities and the date when the securities will be delivered and paid for are fixed at the time the transaction is negotiated. The values of the securities purchased on a when-issued basis are identified as such in each Fund's Schedule of Investments. With respect to purchase commitments, the Fund identifies securities as segregated in its custodial records with a value at least equal to the amount of the commitment. Losses may arise due to changes in the value of the underlying securities, if the counterparty does not perform under the contract's terms, or if the issuer does not issue the securities due to political, economic, or other factors.

Contingent deferred sales charge—Class A shares of \$1 million or more may be subject to a 1.00% contingent deferred sales charge ("CDSC") if redeemed within 24 months of purchase (excluding shares purchased with reinvested dividends and/or distributions). Investments in Class C shares (in any amount) may be subject to a 1.00% CDSC if redeemed within 12 months of purchase.

Federal and state income taxes—Each Fund is a separate taxpayer for federal income tax purposes. Each Fund's policy is to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gain on investments to its shareholders; therefore, no provision for income taxes is required.

As of July 31, 2023, the Funds did not have a liability for any unrecognized tax benefits. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations. During the year ended July 31, 2023, the Funds did not incur any interest or penalties.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years, which include the current and prior three tax years, are open for examination by taxing authorities. Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Premiums and discounts—Premiums and discounts on debt securities are accreted and amortized into interest income using the effective yield method over the lives of the respective securities.

Cash and cash equivalents—The Funds consider investments in an FDIC insured interest bearing savings account to be cash. The Fund maintains balances, which, at times, may exceed federally insured limits. The Fund maintains these balances with a high quality financial institution.

Security transactions, investment income, expenses and distributions—Income and expenses are recorded on the accrual basis. Investment transactions are accounted for on the trade date. Realized gains and losses are reported on the specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income is recognized on the ex-dividend date. Gains and losses on principal payments of mortgage-backed securities (paydown gains and losses) are included as an adjustment to interest income in the Statements of Operations. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable countries' tax rules and regulations. Dividend Harvest Fund, Dividend Summit Fund, and S-T Gov Fund will declare and pay dividends from net investment income monthly. MNA Resources Fund will declare and pay dividends from net investment income quarterly. Growth & Income Fund will declare and pay dividends from net investment income at least annually. The High Income Fund declares dividends from net investment income daily and pays such dividends monthly. Dividends are reinvested in additional shares of the Funds at net asset value or paid in cash. Capital gains, when available, are distributed at least annually. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with federal income tax regulations and may differ from net investment income and realized gains determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"). These differences are primarily due to differing treatments for capital loss carryforwards and losses due to wash sales. In addition, other amounts have been reclassified within the composition of net assets to more appropriately conform financial accounting to tax basis treatment.

Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid-in capital. Temporary book and tax basis differences will reverse in a subsequent period. As of July 31, 2023, distributable earnings was increased by \$77,968 and paid in capital was decreased by \$77,968 for the Dividend Harvest Fund due to a taxable over-distribution.

Use of estimates—The financial statements have been prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increase (decrease) from operations during the reporting period. Actual results could differ from those estimates.

Common expenses—Common expenses of the Trust are allocated among the Funds within the Trust based on relative net assets of each Fund or the nature of the services performed and the relative applicability to each Fund.

Multiple class allocations—The High Income Fund simultaneously uses the settled shares method to allocate income and fund-wide expenses and uses the relative net assets method to allocate gains and losses. Dividend Harvest Fund, Dividend Summit Fund, Growth & Income Fund, MNA Resources Fund and S-T Gov Fund use the relative net assets method to allocate income, fund-wide expenses, gains and losses. Class-specific expenses, distribution fees, and any other items that are specifically attributable to a particular class are charged directly to such class.

Illiquid securities—A security may be considered to be illiquid if it has a limited trading market. Securities are generally considered to be liquid if they can be sold or disposed of in the ordinary course of business within seven days at approximately the price at which the security is valued by the Funds. These securities are valued at fair value as described above. Each Fund intends to hold no more than 15% of its net assets in illiquid securities. Of the illiquid securities listed on the Schedules of Investments, the following securities are considered to be restricted as of July 31, 2023:

High Income Fund	Shares/Principal	Dates Acquired	Cost Basis	Fair Value
International Oncology Care Inc.	1,633	2/22/18	66,476	\$ 23,252
NMG Parent LLC	37	9/25/20	84	\$ 4.671

NOTE 3: Fair Value Measurements

Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in three broad levels: Level 1 inputs are based on quoted prices in active markets for identical securities. Level 2 inputs are based on significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Level 3 inputs are based on significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments). The following is a summary of the inputs used to value the Funds' investments as of July 31, 2023:

Dividend Harvest Fund Common Stocks Short-Term Investments Total	\$ <u>\$</u>	Level 1 335,366,735 2,673,298 338,040,033	 Level 2	0 0 0	Le \$	vel 3 0 0 0 0	\$ <u>\$</u>	Total 335,366,735 2,673,298 338,040,033

^{*}Level 3 corporate bonds for High Income Fund includes a corporate bond valued at zero. Please refer to the Schedules of Investments for sector classification.

A reconciliation of Level 3 investments, including certain disclosures related to significant inputs used in valuing Level 3 investments, are presented when a Fund has a significant amount of Level 3 investments at the beginning and/or end of the year in relation to net assets.

The changes of the fair value of investments during the year ended July 31, 2023, for which the Funds have used Level 3 inputs to determine the fair value are as followed:

					Balance
Balance as	Transfers		Realized	Change in unrealized	as
7/31/2022	into Lv 3	Sales	Gain/(Loss)	appreciation/depreciation	7/31/2023
\$165,342	\$539*	\$0	\$0	\$20,334	\$186,215
\$41	\$0	\$0	\$0	\$0	\$41
\$155,480	\$0	\$0	\$0	(\$18,210)	\$137,270
\$35,080	\$0	\$0	\$0	(\$19,547)	\$15,533
	7/31/2022 \$165,342 \$41 \$155,480	\$165,342 \$539* \$41 \$0 \$155,480 \$0	7/31/2022 into Lv 3 Sales \$165,342 \$539* \$0 \$41 \$0 \$0 \$155,480 \$0 \$0	7/31/2022 into Lv 3 Sales Gain/(Loss) \$165,342 \$539* \$0 \$0 \$41 \$0 \$0 \$0 \$155,480 \$0 \$0 \$0	7/31/2022 into Lv 3 Sales Gain/(Loss) appreciation/depreciation \$165,342 \$539* \$0 \$0 \$20,334 \$41 \$0 \$0 \$0 \$0 \$155,480 \$0 \$0 \$0 (\$18,210)

Net changes in unrealized appreciation/depreciation attributable to Level 3 investments held at July 31, 2023 are (\$37,408), \$0, (\$18,210) and (\$19,547) for common stocks, corporate bonds, convertible preferred stocks and warrants, respectively.

^{*}Transfers into Level 3 resulted from the unavailability to obtain prices from an independent pricing service. One security that transferred into Level 3 had a cost basis of \$0. There were no purchases that resulted in a Level 3 security for the year ended July 31, 2023.

NOTE 7: Investment Advisory Fees and Other Transactions with Affiliates

Viking Fund Management ("VFM"), the Funds' investment adviser; Integrity Funds Distributor, LLC ("Integrity Funds Distributor" or "IFD"), the Funds' underwriter and distributor; and Integrity Fund Services, the Funds' transfer, accounting, and administrative services agent; are subsidiaries of Corridor Investors, LLC ("Corridor Investors" or "Corridor"), the Funds' sponsor. For Integrity High Income Fund, JPMIM is the sub-adviser. For S-T Gov Fund, M.D. Sass Investor Services, Inc. is the sub-adviser. A Trustee of the Funds is also a Governor of Corridor.

VFM provides investment advisory and management services to the Funds. The Investment Advisory Agreement (the "Advisory Agreement") provides for fees to be computed at an annual rate of each Fund's average daily net assets. VFM has also contractually agreed to waive its management fee and to reimburse expenses that are not covered by the management fee, other than extraordinary or non-recurring expenses, taxes, brokerage fees, commissions and acquired fund fees and expenses, so that the net annual operating expenses do not exceed a certain rate. After November 29, 2023 (November 29, 2024 for Dividend Summit Fund), the expense limitations may be terminated or revised for the Funds. Expense limitations as of July 31, 2023, are stated below.

[^] Funds can elect to defer incurred capital losses that occur after October 31 within the fiscal year. Such losses are deemed to arise on the first business day of the following fiscal year for tax purposes.

		Contr	er %	
	Advisory Fee %	Class A	Class C	Class I
Dividend Harvest Fund	0.75%	0.95%	1.70%	0.70%
Dividend Summit Fund*	0.75%	0.99%	1.74%	0.74%
Growth & Income Fund	1.00%	1.24%	1.99%	0.99%
High Income Fund	0.85%	0.99%	1.74%	0.74%
MNA Resources Fund	0.50%	1.50%	2.00%	1.00%
S-T Gov Fund	0.30%	0.80%	N/A	0.55%

^{*} Fund commenced operations on May 1, 2023.

VFM and affiliated service providers may also voluntarily waive fees or reimburse expenses not required under the advisory or other contracts from time to time. There were voluntary waivers for the period of May 1, 2023 (commencement of operations) through July 31, 2023, for Dividend Summit Fund, beyond the expense limitation agreement to maintain a 0.00% expense ratio in the initial months of operation for each class of shares. An expense limitation lowers expense ratios and increases returns to investors. Certain Officers of the Funds are also Officers and Governors of VFM.

^{*}Fund commenced operations on May 1, 2023.

VFM is entitled to recoup such amounts waived or reimbursed for a period of up to three years from the date on which VFM waived fees or reimbursed expenses for each Fund. Each Fund will make repayments to the VFM only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived and (2) the Fund's current expense limitation.

Amounts subject to recoupment and expiration dates are as follows:

	7/31/2024			7/31/2025	7/31/2026
Dividend Harvest Fund	\$	833,118	\$	980,581	\$ 1,443,402

S-T Gov Fund	\$	124,077	\$	102,559	\$ 86,774

IFD serves as the principal underwriter and distributor for the Funds and receives sales charges deducted from Fund share sales proceeds and CDSC from applicable Fund share redemptions. Also, the Funds have adopted a distribution plan for each class of shares as allowed by Rule 12b-1 of the 1940 Act. Distribution plans permit the Funds to reimburse its principal underwriter for costs related to selling shares of the Funds and for various other services. These costs, which consist primarily of commissions and service fees to broker-dealers who sell shares of the Funds, are paid by shareholders through expenses called "Distribution Plan expenses." The Funds currently pay an annual distribution fee and/or service fee of up to 0.25% (0.50% for MNA Resources Fund) for Class A and 1.00% for Class C of the average daily net assets. Class I shares do not have a 12b-1 plan in place. Certain Officers of the Funds are also Officers and Governors of IFD.

^{*}Fund commenced operations on May 1, 2023.

IFS acts as the transfer agent for High Income Fund and S-T Gov Fund at a monthly variable fee equal to 0.12% on the first \$0 to \$200 million and at a lower rate in excess of \$200 million of the Funds' average daily net assets on an annual basis and an additional fee of \$500 per month for each additional share class plus reimbursement of out-of-pocket expenses and sub-transfer agent out-of-pocket expenses. IFS acts as the transfer agent for Dividend Harvest Fund, Dividend Summit Fund, Growth & Income Fund, and MNA Resources Fund at a monthly variable fee equal to 0.18% on the first \$0 to \$200 million, 0.15% on the next \$200 to \$700 million and at a lower rate in excess of \$700 million of the Funds' average daily net assets on an annual basis and an additional fee of \$500 per month for each additional share class plus reimbursement of out-of-pocket expenses and sub-transfer agent out-of-pocket expenses. Sub-transfer agent out-of-pocket expenses are included in the transfer agent fees below and in the transfer agent out-of-pocket balance on the Statements of Operations.

IFS also acts as the Funds' administrative services agent for a monthly fee equal to the sum of a fixed fee of \$2,000 and a variable fee equal to 0.14% on the first \$0 to \$200 million, 0.13% on the next \$200 to \$700 million and at a lower rate in excess of \$700 million of the Funds' average daily net assets on an annual basis and an additional fee of \$1,000 per month for each additional share class plus reimbursement of out-of-pocket expenses. Certain Officers of the Funds are also Officers and Governors of IFS.

^{*}Fund commenced operations on May 1, 2023.

NOTE 8: Principal Risks

The High Income Fund may be invested in lower-rated debt securities that have a higher risk of default or loss of value since these securities may be sensitive to economic changes, political changes or adverse developments specific to the issuer.

The MNA Resources Fund invests significantly in relatively few sectors, primarily the energy sector, and has more exposure to the price movement of this sector than funds that diversify their investments among many sectors.

NOTE 9: Beneficial Ownership

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the 1940 Act. At July 31, 2023, the following shareholder held over 25% of S-T Gov Class I's shares outstanding:

Marc Brownstein 35.52%

NOTE 10: Subsequent Events

The Funds are required to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the Statements of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Funds are required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated the impact of all subsequent events on the Funds through the issuance date of these financial statements and has noted no such events requiring disclosure.

⁽¹⁾ Per share net investment income (loss) has been calculated using the average daily shares method.

Total return represents the rate that an investor would have earned or lost on an investment in the Fund assuming reinvestment of all dividends and distributions.

⁽²⁾ Net realized and unrealized gain/(loss) per share are balancing amounts necessary to reconcile the change in net asset value per share for the period, and may not reconcile with the aggregate gains and losses in the statement of operations due to share transactions for the period.

⁽³⁾ This row reflects the impact, if any, of fee waivers or reimbursements by the Adviser and/or affiliated service providers.

- (1) Per share net investment income (loss) has been calculated using the average daily shares method.
- (2) Net realized and unrealized gain/(loss) per share are balancing amounts necessary to reconcile the change in net asset value per share for the period, and may not reconcile with the aggregate gains and losses in the statement of operations due to share transactions for the period.
- (3) This row reflects the impact, if any, of fee waivers or reimbursements by the Adviser and/or affiliated service providers.
- ^ Annualized for periods less than one year.
- # Not annualized for periods less than one year.

Total return represents the rate that an investor would have earned or lost on an investment in the Fund assuming reinvestment of all dividends and distributions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Trustees of The Integrity Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of The Integrity Funds comprising the funds listed below (the "Funds") as of July 31, 2023, the related statements of operations and changes in net assets, the related notes, and the financial highlights for each of the periods indicated below, (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of July 31, 2023, the results of their operations, the changes in their net assets, and the financial highlights for each of the periods indicated below in conformity with accounting principles generally accepted in the United States of America.

Fund Name	Statements of Operations	Statements of Changes in Net Assets	Financial Highlights
Integrity Dividend Harvest Fund, Integrity Growth & Income Fund, Integrity High Income Fund, and Integrity Mid-North American Resources Fund	For the year ended July 31, 2023	For the years ended July 31, 2023, and 2022	For the years ended July 31, 2023, 2022, 2021, 2020, and 2019
Integrity Short Term Government Fund	For the year ended July 31, 2023	For the years ended July 31, 2023, and 2022	For the years ended July 31, 2023, 2022, and 2021, the two months ended July 31, 2020, and the years ended May 31, 2020, and 2019
Integrity Dividend Summit Fund	For the period fro through July 31, 20	• • •	nmencement of operations)

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence

regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2023, by correspondence with the custodian, counterparties, and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more investment companies advised by Viking Fund Management since 2009.

COHEN & COMPANY, LTD.

shen & Company, Utd.

Cleveland, Ohio September 29, 2023 As a shareholder of the Funds, you incur two types of costs: (1) transaction costs, including sales charges (loads), redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution (12b-1) fees and other Funds expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the one-half year period shown below and held for the entire one-half year period.

The section in the table under the heading "Actual" provides information about actual account values and actual expenses. You may use the information in these columns together with the amount you invested to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an account value of \$8,600 divided by \$1,000 equals 8.6), then multiply the result by the number in the appropriate column for your share class in the column entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

The section in the table under the heading "Hypothetical (5% return before expenses)" provides information about hypothetical account values and hypothetical expenses based on the Funds' actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Funds' actual returns. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the section in the table under the heading "Hypothetical (5% return before expenses)" is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

		Beginning	Ending	Expenses	
		Account	Account	Paid	Annualized
		Value	Value	During	Expense

	Hypothetical - Class I	\$1,000.00	\$1,021.12	\$3.71	0.74%
Integrity Mid-North	Actual - Class A	\$1,000.00	\$984.10	\$7.38	1.50%
American Resources	Actual - Class C	\$1,000.00	\$981.30	\$9.83	2.00%
Fund	Actual - Class I	\$1,000.00	\$986.60	\$4.93	1.00%
	Hypothetical - Class A	\$1,000.00	\$1,017.36	\$7.50	1.50%
		•			•

	Hypothetical - Class C	\$1,000.00	\$1,014.88	\$9.99	2.00%
	Hypothetical - Class I	\$1,000.00	\$1,019.84	\$5.01	1.00%
Integrity Short Term	Actual - Class A	\$1,000.00	\$1,000.30	\$3.97	0.80%
Government Fund	Actual - Class I	\$1,000.00	\$1,000.80	\$2.73	0.55%
	Hypothetical - Class A	\$1,000.00	\$1,020.83	\$4.01	0.80%
	Hypothetical - Class I	\$1,000.00	\$1,022.07	\$2.76	0.55%

^{*}Expenses are equal to the annualized expense ratio, multiplied by the average account value over the period, multiplied 181 days in the one-half year period, and divided by 365 days in the fiscal year (to reflect the one-half year period).

LIQUIDITY RISK MANAGEMENT PROGRAM (unaudited)

The Integrity Funds have adopted and implemented a written liquidity risk management program (the "LRMP") as required by Rule 22e-4 under the Investment Company Act of 1940, as amended. The LRMP is reasonably designed to assess and manage each Fund's liquidity risk, taking into consideration each Fund's investment strategy and the liquidity of its portfolio investments during normal and reasonably foreseeable stressed market conditions; its short- and long-term cash flow projections; and its cash holdings and access to other liquidity management tools such as available funding sources. The Viking Funds' Board of Trustees approved the appointment of the Funds' investment adviser, Viking Fund Management Inc. ("Viking"), as the administrator of the LRMP.

Viking manages liquidity risks associated with the Funds' investments by monitoring, among other things, cash and cash equivalents, any use of derivatives, the concentration of investments, the appropriateness of each Fund's investment strategy, and by classifying every Fund investment as either highly liquid, moderately liquid, less liquid or illiquid on at least a monthly basis.

At a meeting held on April 28, 2023, Viking provided an oral and written report to the Trustees on the operation and effectiveness of the LRMP during the previous year. The report from Viking concluded that the Funds did not experience any significant liquidity challenges during the covered period, and the Funds' LRMP is reasonably designed to assess and manage its liquidity risk. The report also concluded that the LRMP continues to operate adequately and effectively to enable Viking to oversee and manage liquidity risk and ensure the Funds are able to meet redemption requests without significant dilution to the remaining investors' interest in the Funds. During the review period, the Funds' portfolio consisted primarily of highly liquid investments, which are defined as cash and any investments that the Funds reasonably expects to be converted to cash in current market conditions in three business days or less without significantly changing the market value of the investment. Therefore, the Funds have not adopted a highly liquid investment minimum. The Funds' investments were below the limitation on illiquid investments during the review period. Additionally, Viking indicated that no events occurred that would require the filing of Form N-LIQUID and recommended no material changes to the LRMP.

^{**}Dividend Summit Fund's beginning account value is as of May 1, 2023 (inception of operations.)

BOARD OF TRUSTEES AND OFFICERS (unaudited)

The Board of Trustees ("Board") of the Funds consists of four Trustees (the "Trustees"). These same individuals, unless otherwise noted, also serve as trustees for the six series of Viking Mutual Funds. Three Trustees are not "interested persons" (75% of the total) as defined under the 1940 Act (the "Independent Trustees"). The remaining Trustee is "interested" (the "Interested Trustees") by virtue of his affiliation with Viking Fund Management, LLC and its affiliates."

For the purposes of this section, the "Fund Complex" consists of the six series of The Integrity Funds and the six series of Viking Mutual Funds.

Each Trustee serves a Fund until its termination; or until the Trustee's retirement, resignation, or death; or otherwise as specified in the Funds' organizational documents. Each Officer serves an annual term. The tables that follow show information for each Trustee and Officer of the Funds.

PROXY VOTING OF FUND PORTFOLIO SECURITIES

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to securities held in the Funds' portfolios are available, without charge and upon request, by calling 800-276-1262. A report on Form N-PX of how the Funds voted any such proxies during the most recent 12month period ended June 30 is available through the Funds' website at www.integrityvikingfunds.com. The information is also available from the Electronic Data Gathering Analysis and Retrieval ("EDGAR") database on the website of the Securities and Exchange Commission ("SEC") at www.sec.gov.

QUARTERLY PORTFOLIO SCHEDULE

Within 60 days of the end of their second and fourth fiscal quarters, the Funds provide a complete schedule of portfolio holdings in their semi-annual and annual reports on the Form N-CSR(s). These reports are filed electronically with the SEC and are delivered to the shareholders of the Funds. The Funds also file their complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT. The Funds' Forms N-PORT(s) and N-CSR(s) are available on the SEC's website at www.sec.gov. The Funds' Forms N-PORT(s) and N-CSR(s) may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202-551-8090. You may also access this information from the Funds' website at www.integrityvikingfunds.com.
